4. (Unclassified - GLC) Met with William Berg, Administrative Assistant to Senator Wayne Morse, and advised him that on a preliminary check we found no information on the Information Council of the Americas

[REDACTED]

[REDACTED] I suggested to Berg that he check further on this with the FBI pointing out that we had no internal security functions and also asked that in any correspondence on this matter, he make no reference to CIA. Berg agreed and thank us for looking into the matter for him.

5. (Unclassified - GLC) George Murphy, Joint Committee on Atomic Energy staff, called and asked several probing questions concerning Representative Harris B. McDowell's recent statement following a briefing given the Foreign Affairs Committee by the Secretary of State in some extremely sensitive areas. I referred Murphy to the Washington Post item of 22 October which he had not seen and also suggested that if he desired further information he contact the State Department.
